

EAGLE-I

Cut plate vision system.

Our cut plate inspection system family. Multi-channel, state-of-the-art cameras see all the standard defects — with greater accuracy, discrimination and categorisation.

01 · OVERVIEW

Multi-channel cameras. Greater accuracy, discrimination and categorisation.

Eagle-I is the mainstay product we have delivered to customers at the cold end of float glass production, using multi-channel state-of-the-art cameras to see all the standard defects.

**Multi-channel cameras**

State-of-the-art cameras at the heart of the system.

**All standard defects**

Sees all the standard defects in cut plate glass.

**Greater accuracy**

Greater accuracy, discrimination and categorisation.
